The Kids Need Your Help!

Get your family, friends and co-workers involved!

The Georgia Safety, Health and Environmental Conference is committed to assisting Georgia's employers and employees in providing safe, healthy work environments. Unfortunately, incidents sometime occur which forever change the lives of workers and their families. An effective Safety, Health and Environmental program focuses on preventing incidents, but also provides post incident measures, such as implementing corrective actions. These steps usually make the workplace safer, but the seriously injured employee and his/her family may struggle forever.

"Our kids" are at the heart of all we do. Since Kids' Chance of Georgia began in 1988, we have awarded hundreds of scholarships to children of Georgia's seriously injured workers.

Of the students who received direct financial aid for educational expenses in the 2011 calendar year, all attended universities and colleges, worked toward diplomas from technical colleges or were able to return to and finish high school.

The 18th annual Georgia Safety, Health and Environmental Conference, to be held at the Marriott Savannah Riverfront hotel on September 12-14, 2012, will again feature our very popular, successful and beneficial

SILENT AUCTION

with 100% of the proceeds going to Kids' Chance of Georgia. But, we cannot do this without your involvement. We need donated items, purchased or produced by you, with or without your logo. Tools, household goods, art work, collectables, electronics, sporting goods, gardening supplies, luggage, vacation getaways...anything someone would like to purchase...will be greatly appreciated. Donate it today! Kids' Chance of Georgia will provide you with the necessary tax-deductible information and paperwork. (501(c)(3) #: 58-1827365

Please help us help the kids! Last year, the auction added a fun dimension to the conference and netted in excess of \$9,500 for deserving students.
